19th November 2021

Dear Parents / Carers of Year 5 and 6 students,

King's School Energy Live Show – Monday 13th December 5.30 to 6.30 pm

We would like to invite students in Years 5 and 6 and their parents to join us for the King's School's first ever Science department community event. The event is aimed at Year 5 and Year 6 students. The Royal Institute will be coming in to run their exciting Science show, Energy Live!

Join us on an exciting journey through the stores of energy that surround us. From elastic to gravitational, kinetic to chemical, see some fiery and explosive demonstrations of what energy is and how it affects our lives.

Royal Institute presenter Gareth Baston, who will be leading the event, has been creating and performing science shows for over 5 years all around the globe and working with various people to help communicate scientific theories. When he's not building a bed of nails in his garage or crushing a barrel with a flame thrower, he'll be providing effects for concerts and theatres in venues around the country.

There is limited availability for this event. Tickets are available on a first come first serve basis. If you would like to book a place for yourself and your child, please register through the linked google form <https://forms.gle/MCreQVbp5uFaRo677>.

Please note the show includes the use of eggs. If you or children have allergies to eggs, we would advise you not sign up for this event.

Yours Sincerely,

Mrs A Coles
Head of Science
